

DoConnect

Asking question is the first way to begin the change

Introduction

About the project

DoConnect is an online discussion platforms that enable user to ask and answer questions.

Problem Domain

The Internet is a huge resource of knowledge and information where you can find virtually anything. But, very often there are situations where you aren't able to find the answers to your questions. Your question may require local knowledge or particular expertise.

What are we working on?

Product Perspective

The goal is to serve both the learner and expert. The goal of DoConnect is reduce the gap between the knowledge sharer and learner. .

Solution Domain

DoConnect is a online platform which helps to connect users with questions to the users with answer. It is a knowledge sharing and doubt clearing platform. After covid-19 pandemic, the learning is shifted to online and DoConnect helping users to clear the doubts online very easily with support of posting their question on platform and chatting system.

Features

User-Friendly UI

User can easily understand the user interface and use it

Security

User is safe from internet abuse because the questions and answers are approved by Admin

Chatting System

User can chat with other user.

Searching

User can easily search and filter out the question according to his requirements

Requirements

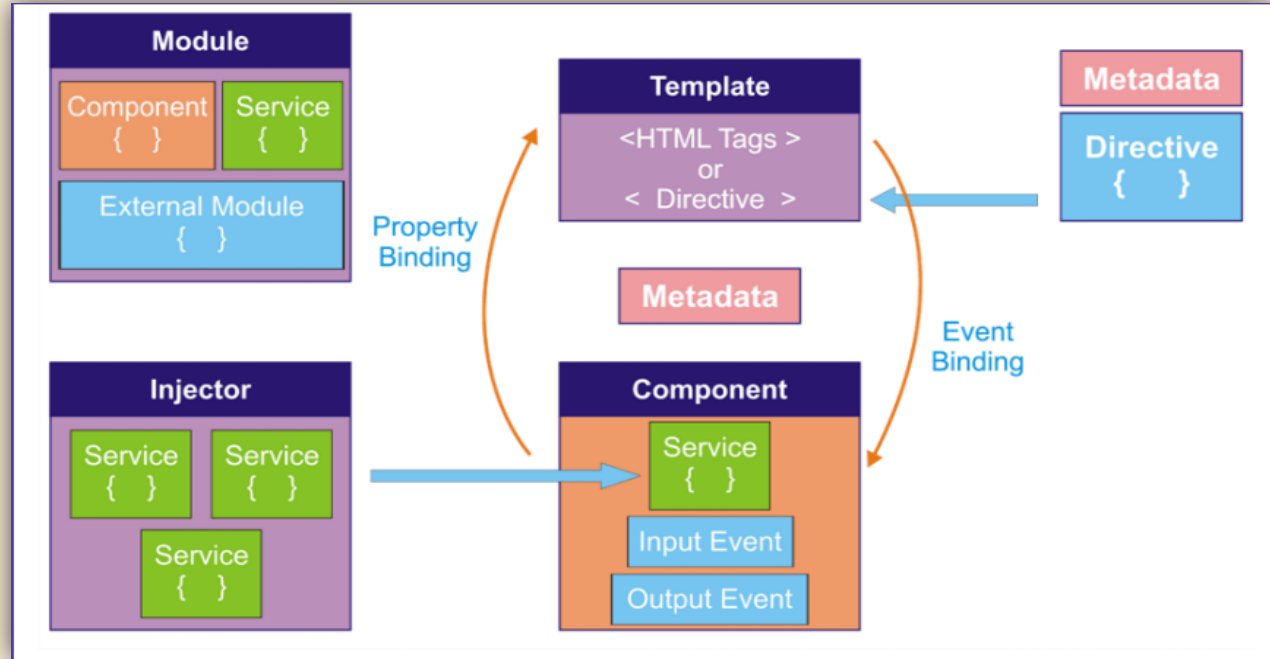

Software

Technologies	Angular, Spring boot & Database

The screenshot shows the 'What is python?' question and answer page on the DoConnect website. At the top, there is a search bar and a welcome message 'WELCOME SAKSHAM GUPTA!'. Below the welcome message is a 'GO BACK' button. The main content area displays the question 'What is python?' asked by Saksham Gupta, with the topic 'Python'. The question text is: 'Python is an interpreted, object-oriented, high-level programming language with dynamic semantics.' It is answered by Shivam Sharma. Below the question is another instance of the same question and answer. On the right side, there is an 'Add your answer here.' section with a text input field labeled 'Write your answer' and a 'SUBMIT ANSWER' button. A watermark 'Activate Windows Go to Settings to activate Windows' is visible in the bottom right corner.

Conclusion

DoConnect to connect the people who have knowledge to the people who need it, to bring together people with different perspectives so they can understand each other better, and to empower everyone to share their knowledge for the benefit of the rest of the world. DoConnect answers come from people who really understand the issues and have first-hand knowledge. DoConnect is the place to read and post questions. DoConnect is the place to read inspiring people , directly answering the questions people most wanted them to answer. DoConnect is where you can read important insights that have never been shared anywhere else, from people you could never reach any other way.
